Federal Communications Commission
Office of Secretary

Re: MB Docket No. 05-192

Dear Ms. Dortch:

As you know, on May 18, 2005, Adelphia Communications Corporation ("Adelphia"), Comcast Corporation ("Comcast") and Time Warner Inc. ("Time Warner") (collectively, the "Applicants"), filed their "Applications and Public Interest Statement" ("PI Statement") in connection with the above-referenced proceeding involving the sale of substantially all of the cable systems operated by Adelphia in the U.S., some to affiliates of Comcast and some to affiliates of Time Warner, the exchange of certain cable systems between Comcast and Time Warner, and the redemption of certain interests held by Comcast in Time Warner affiliates that are currently held in trusts (the "Transactions").

The Commission staff has requested a breakdown of the cable communities to be acquired by Time Warner and Comcast pursuant to the Transactions. Submitted herewith on behalf of Time Warner are three charts of cable communities to be acquired by affiliates of Time Warner Cable Inc. ("Time Warner Cable"): 1) directly from Adelphia; 2) from Adelphia through Comcast; and 3) directly from Comcast. Also attached are three charts indicating the cable communities to be acquired by affiliates of Comcast: 1) directly from Adelphia; 2) from Adelphia through Time Warner Cable; and 3) directly from affiliates of Time Warner Cable. The Applicants have sought to list only cable communities that actually reflect political subdivisions (e.g., the Applicants have sought to exclude SMATVs or private developments). Moreover, when an affiliate of Time Warner Cable or Comcast is to acquire two or more service areas or franchises covering the same community (e.g., multiple service areas in the same community or consolidated operations previously acquired from different companies), such communities are listed only once on each applicable chart.

In addition, certain organizations have requested the provision of information on the impact of the Transactions on the total number of cable subscribers to be acquired by Comcast and Time Warner in various areas of the United States upon completion of the Transactions. The Applicants submit herewith estimates of total subscriber changes in every affected DMA in the 0+2

Ms. Marlene H. Dortch, Secretary

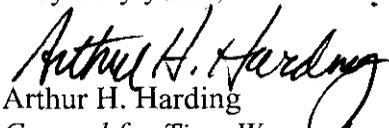

June 21, 2005

Page Two

country. These estimates are based on the best information available to the Applicants, but not necessarily as of identical dates. Moreover, as previously noted in the PI Statement, Comcast and Time Warner historically have used slightly different methodologies for subscriber counts in multiple dwelling units. *See PI Statement at n.186.* Specifically, Comcast has used the "equivalent basic unit" ("EBU") methodology, while Time Warner has used the "occupied dwelling unit" methodology. In order to ensure that the subscriber totals are consistent with their past reports, each of Time Warner and Comcast are using their historic approach when reporting subscriber totals (i.e., the Comcast report uses the EBU method while the Time Warner report uses the occupied dwelling unit methodology).

Please let me know if there are any questions regarding this submission.

Very truly yours,

Arthur H. Harding
Counsel for Time Warner Inc.
